MR & MRS WHEEL DEAL · ROAD TO A MILLION · THE ORIGIN STORY

HOW WE GOT HERE: THE PROOF OF CONCEPT

Before the cameras, before the series, before the name — a joint JPM account quietly ran the doctrine for nine months. This is the ledger that inspired the Road to a Million.

THE TIMELINE

FEB 2026
First cycle
40 BMNR puts written — the doctrine goes live in the joint account. They expire worthless: 100% captured.

SPRING
The rotation
ENPH, SOFI, BMNR again — monthly cycles, familiar names, premiums banked, capital recycled.

SUMMER
Finding the horse
The wheel turns toward CleanSpark — cheaper gate, efficient miner, accumulation candidate.

OCT 16
The assignment
6,500 CLSK land at $11 — the "worst case" arrives… with $21K of premium already in the till behind it.

TODAY
The series
Proof of concept becomes Road to a Million: public, on camera, $2,500/mo — destination $1,000,000 by 2032.

THE LEDGER — EVERY OPTION CYCLE, JPM FIGURES NET OF FEES

CYCLE	COLLECTED	HOW IT ENDED	NET KEPT
Feb–Apr · 40× BMNR Apr $15 puts	$2,599	expired worthless	+$2,599
Apr–May · 28× ENPH Jun $25 puts	$2,451	bought back for $324	+$2,127
May–Jun · 50× SOFI Jun $15 puts	$2,949	bought back for $51	+$2,898
Jun–Jul · 50× BMNR Jul $15 puts	$3,549	bought back for $578	+$2,971
Jul–Aug · 50× BMNR Aug $14 puts	$3,799	bought back for $106	+$3,694
Aug–Sep · 75× CLSK Sep $10 puts	$2,764	bought back for $237	+$2,527
Sep–Oct · 65× CLSK Oct $11 puts	$3,119	assigned → 6,500 shares @ $11	+$3,119
Oct · 65× CLSK Nov $11 covered calls	$1,819	working right now	+$1,819
Net premium banked since February	**eight cycles · zero losing cycles**		**+$21,753**

CYCLES RUN

every single one a payday

NET PREMIUM
+$21,753
in nine months, part-time, no cameras

AVG PER CYCLE
~$2,719
the hamburger stand, open monthly

WHY THIS BECAME A SERIES

The proof was already in. Nine months of real fills in a real joint account showed the doctrine works at household scale: sell puts on stocks worth owning, capture the premium, recycle, repeat. Even the "worst case" — assignment with the stock below strike — arrived cushioned by $21K of banked premium and a plan (Episode 3: play to break even).

So we turned the lights on. If it works quietly, teach it loudly: the Road to a Million series runs the same playbook in public — the war chest consolidating into one account, $2,500 a month of fuel, every fill shown, every ledger updated. Not a backtest. A continuation.

We didn't start a journey in October. We went public with one that was already working — eight cycles, eight paydays, and the receipts to prove it.

Educational content only — not financial advice or a recommendation to buy or sell any security. All figures from the JPM joint account transaction ledger, Jan 1 – Oct 23, 2026, net of fees; the open covered-call cycle is unrealized until closed or expired. Past results do not guarantee future returns. Options involve substantial risk, including assignment and total loss of premium. Do your own research and consult your own advisors.

MR & MRS WHEEL DEAL · ROAD TO A MILLION · THE SERIES SO FAR

FOUR EPISODES IN: THE CATCH-UP

Everything that's happened since the cameras turned on — all decks and replays free at tjtherealwheeldeal.com.

THE EPISODES

EPISODE 01

The Business Plan & The First Position

The incorporation: mission, capital, rules. The war chest (~$142K target), the portfolio-margin unlock plan, the doctrine in writing — and the first position on camera: 65 cash-secured CLSK puts, receipts on screen.

EPISODE 02

Earn While You Learn

The apprenticeship model — find someone trading transparently and model the trades while you learn to fish — plus The New Language: what an option IS, the Four Doors, the fine print, moneyness, the seller's playbook.

EPISODE 03

What Next? Play to Break Even

The puts got assigned: 6,500 CLSK at $11 with the stock at $8.46 — the "worst case," out of the way early. The fork in the road, covered calls at the strike, the ACB ledger is born. Cash flow first; break even before the win.

EPISODE 04

Hurry Up and Wait

A second horse: the SpaceX put — sold, then closed next morning after earnings for +$319 (69% of max in a day). The $2,500/month engine, the war-chest consolidation, and deep dives on CLSK, SPCX and ASST.

THE LIVE SCOREBOARD — AS OF OCT 23

THE CLSK LEDGER	CASH EFFECT	ADJUSTED COST BASIS / SHARE
Assigned 6,500 CLSK @ $11.00	−$71,500	$11.00
Put premiums banked	+$3,119	$10.52
65× Nov 20 $11 covered calls @ $0.29	+$1,819	$10.23 — and walking down

PREMIUM BANKED, JPM · SINCE FEB
+$21,753
8 cycles, zero losers

PREMIUM BANKED, TASTYTRADE
+$319
the one-day SpaceX trade

THE BRIDGE
500 ASST
crypto exposure while the cash travels

FUEL ARRIVING
~$17.6K
BMNU harvest proceeds + $2,500/mo deposits

WHERE WE STAND & WHAT'S NEXT

The position today. 6,500 CLSK at a $10.23 adjusted basis with the Nov 20 $11 covered calls working · 500 ASST in the joint account · the war chest consolidating into one roof — the ACAT and the harvest proceeds land next week. Every dollar arrives with a job.

The road ahead. Nov 20: the covered calls expire — called away at break-even-plus, or roll the next rung and keep walking the basis down. More puts when the ideal setup shows. $2,500 a month, rain or shine. Destination unchanged: **$1,000,000 by 2032.** Mechanical. Methodical. Mathematical.

Catch up any time: every deck, every lesson, every replay — free at tjtherealwheeldeal.com. The ledger updates every episode. Watch the break-even walk.
